Make the ordinary extraordinary

Choose a common object (Object must be small enough to be easily held and observed in different environments) A series of prompts will then be given each night. You are to create a drawing of the object based on the prompt given in a single frame. These drawings will ultimately become one continuous drawing. The length of each drawing will be determined by YOU, but the same object must appear in each frame.

Material: Register tape and at least 6 different materials

Due Date: October 9th
